

## Board of Education High Point Regional

PUPILS

### PUBLIC PERFORMANCES BY PUPILS

The Board recognizes the social and scholastic values that may be derived by students participating in public performances sponsored by community and civic organizations, but specifies the following guidelines to prevent unreasonable demands on the time and energies of students and staff.

- a. Requests for student participation in community-sponsored activities must be made in writing to the building principal.
- b. The participating students may not leave the school district unless the Board has granted special permission and the parents of minor students have granted their permission.
- c. No student shall be required to participate in any community sponsored activity, unless such activity was known by him to be a requirement of the school program.

No music supervisor, music teacher or any person having charge of any band or orchestra connected with a public school of this state shall permit such band or orchestra to play, perform or furnish music as a school band or orchestra at any function in competition with civilian musicians. Excepted herefrom are functions connected with such public school and functions which shall be of a patriotic nature.
