

HIGH POINT REGIONAL HIGH SCHOOL
HEALTH AND PHYSICAL EDUCATION DEPARTMENT
“DRIVER EDUCATION”

High Point Regional High School’s freshman health unit includes Driver Education. Driver Education exposes students to all phases of driving and the responsibilities that are associated with driving. This is a theory class and **does not** include actual “behind the wheel” training. Students must receive their six hours behind the wheel training from outside agencies. In order to assist parents/guardians in locating agencies that offer behind the wheel training the Health and Physical Education Department has developed the following list of local agencies. ***High Point Regional High School does not endorse nor promote any of the agencies listed.*** It is merely a list developed from the EMBARQ yellow pages to assist parents in their search for behind the wheel training. Please refer all questions to the agencies listed below:
