The Board of Education believes that the buildings and facilities of the school district represent a substantial community investment. The Board directs the development and implementation of a plan for school district security to protect the school community's investment in the school buildings and facilities. The Board will comply with the security measures required in N.J.S.A. 18A:7G-5.2 for new school construction and for existing school buildings.

The school district security program will include: maintenance of facilities that are secure against unwelcome intrusion; protection against fire hazards and faulty equipment; and compliance with safe practices in the use of electrical, plumbing, heating, and other school building equipment.

The Board shall provide to local law enforcement authorities a copy of the current blueprints and maps for all schools and school grounds within the school district or nonpublic school. In the case of a school building located in a municipality in which there is no municipal police department, a copy of the blue prints and maps shall be provided to an entity designated by the Superintendent of the New Jersey State Police. The Board shall provide revised copies to the applicable law enforcement authorities or designated entities any time that there is a change to the blueprints or maps.

The Board directs close cooperation of district officials with law enforcement, fire officials, and other emergency agencies.

Each public elementary and secondary school building shall be equipped with at least one panic alarm for use in a school security emergency pursuant to N.J.S.A. 18A:41-10 through 13.

The Superintendent of Schools shall designate a school administrator, or a school employee with expertise in school safety and security, as a School Safety Specialist for the district in accordance with the provisions of N.J.S.A. 18A:17-43.3.
