May 18, 2018

Dear Parents,

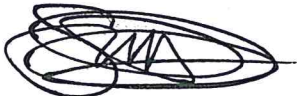

On behalf of the High Point Regional High School Science National Honor Society (SNHS), Technology Student Association (TSA), and High Point HACK Club, I would like to invite all elementary students (K-5) and parents to a STEM Activity Fair on Wednesday, June 6, 2018, This event will take place from 5:00 to 7:00 p.m. in the east gym at High Point Regional High School.

High school students and teachers will have more than 20 different hands-on science and technology activities, demonstrations, and mini-lessons with which elementary students and their parents may engage. Activities will include ice-cream making, a density column activity, hovering balloons, making and flying ring gliders, catapults, a small rideable hovercraft, coding robotics, 3D printing, the chance to walk across the surface of a pool of liquid, and much more!

Families are welcome to arrive when it is convenient and stay as long as they wish. The event will be set up in the main gym and families may circulate from activity to activity as they choose. The event is free and we are asking that parents stay with their children throughout their visit.

As always, please feel free to contact me if you have any questions or concerns.

Sincerely,

Scott D. Ripley, Ed.D  
Superintendent
