# Logging into LinkIt! and Getting Help

1. Go to highpoint.linkit.com (we recommend using the Chrome browser)
2. Enter your credentials:
   - Username - Part of Email ID before the '@' symbol
   - 1st time default password - District123

3. If this is your first time logging into LinkIt, you will be asked to change the default password to a strong secure password and answer security questions.
   If you lose your password, click [Lost password?] and enter your LinkIt username, which depending on your district's setup, may or may not be your email address.
