Links for this Scholarship Worksheet and the Local Scholarship Application are found there. The application has also been “shared” with the senior class; make a copy to your Google drive before completing.
- Include any and all data you think would be of value to a scholarship committee. As you record your activities and write your essay, keep in mind that many of the organizations emphasize community service. Oftentimes committees finalize their decisions based on the essay. Make sure your essay reflects your *best* work—say something meaningful and write it well. Please proofread your work.
- Please answer the two multiple-choice questions on page 1 by **highlighting** your response.
- As you work on the **High School Extra-Curricular Activities** section, please add and/or delete lines as necessary to fit your list of activities in each section. If possible, try to keep this section to one page. If it carries over to a second page, please be sure that the **Family** section starts on a *new* page.
- You may need to add lines to the **Anticipated College Expenses** section. If this extends the section to a second page, please adjust the **Short Answer/Essay Questions** so that section starts on a *new* page.
- Financial need is a consideration for many of the organizations as they choose scholarship recipients. Please do your best to provide accurate information about your anticipated college expenses and your plans to meet them. Check your school's website to look up the most current cost information. Residential students should include tuition, room and board. Commuter students should include tuition and travel expenses. Including your Estimated Family Contribution from the FAFSA is optional.
- Share your application with your parents for their input and review. Their help will ensure your application is as correct and complete as possible.
