

SCHOLASTIC STUDENT-ATHLETE SAFETY ACT

INFORMATION FACT SHEET FOR PARENTS/GUARDIANS

Prior to participation on a school-sponsored interscholastic or intramural athletic team or squad, each student-athlete in grades six through 12 must present a completed Preparticipation Physical Evaluation (PPE) form to the designated school staff member. Important information regarding the PPE is provided below, and you should feel free to share with your child's medical home health care provider.

1. **The PPE may ONLY be completed by a licensed physician, advanced practice nurse (APN) or physician assistant (PA) that has completed the Student-Athlete Cardiac Assessment professional development module.** It is recommended that you verify that your medical provider has completed this module before scheduling an appointment for a PPE.
2. The required PPE must be conducted within 365 days prior to the first official practice in an athletic season. The PPE form is available in English and Spanish at <https://www.nj.gov/education/safety/health/athlete/docs/athleticphysicalsform.pdf>
3. The parent/guardian must complete the History Form (page one), and insert the date of the required physical examination at the top of the page.
4. The parent/guardian must complete The Athlete with Special Needs: Supplemental History Form (page two), if applicable, for a student with a disability that limits major life activities, and insert the date of the required physical examination on the top of the page.
5. The licensed physician, APN or PA who performs the physical examination must complete the remaining two pages of the PPE, and insert the date of the examination on the Physical Examination Form (page three) and Clearance Form (page four).
6. The licensed physician, APN or PA must also sign the certification statement on the PPE form attesting to the completion of the professional development module. Each board of education and charter school or nonpublic school governing authority must retain the original signed certification on the PPE form to attest to the qualification of the licensed physician, APN or PA to perform the PPE.
7. The school district must provide written notification to the parent/guardian, signed by the school physician, indicating approval of the student's participation in a school-sponsored interscholastic or intramural athletic team or squad based upon review of the medical report, or must provide the reason(s) for the disapproval of the student's participation.
8. For student-athletes that had a medical examination completed more than 90 days prior to the first official practice in an athletic season, the Health History Update Questionnaire (HHQ) form must be completed, and signed by the student's parent/guardian. The HHQ must be reviewed by the school nurse and, if applicable, the school's athletic trainer. The HHQ is available through the Geneis Parent Portal

All forms should be sent to the main office via one of the following methods:

Fax - 973-875-2756

Email - cdexter@hpregonal.org or jmartin@hpregonal.org

Mailed - 299 Pidgeon Hill Rd, Sussex, NJ 07416

I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, a physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians).
