

NOTICE TO PARENTS OF ATHLETES

With our transition to Genesis, we're attempting to go as paperless as possible. This is exciting news for you as well as it is for us. We realize that a physical packet that's 19 pages long is a detriment to participation in sports. To that end, we will be making the bulk of the paperwork required for athletic clearance available through your Genesis parent portal. Everything EXCEPT the physical form, and subsequently the Health History Update form will now be electronically submitted. The physical forms will still be available from our webpage to be printed out by you and submitted.

The Emergency Contact form will now be what you submit through the Genesis parent portal as your contact information.

We will no longer be accepting paper forms, unless it's specifically requested by the Athletic Department.

We hope that, after some growing pains, we will all be able to simplify our process by doing this via our website and parent portal. We also would like to thank you in advance for your patience and understanding with this transition.
