

Teaching New Teachers

Teaching New Teachers (TNT) is High Point's internal program for providing support and guidance to new teachers. This program provides support to teachers who are new to the field of teaching, as well as all teachers, regardless of experience, who are new to High Point.

Mission Statement

The goal of this group is to prepare, support, and guide new staff professionally, academically, socially, and emotionally.

We believe this is important in order to maintain quality teaching, a high level of morale, and good rapport with the community.

Profession	Academic	Social	Emotional
