Dear Parents and Members of the High Point Community,

Since the 2011-12 school year, New Jersey's School Performance Reports have provided families, educators and the public with a picture of overall school performance. As part of New Jersey's accountability system, the annual performance report typically provides valuable information across many elements, including schoolwide academic achievement and progress, demographics, school climate, chronic absenteeism, and college and career readiness.

**Unfortunately, due to the COVID-19 pandemic, some data which is usually included in this annual report (state testing results, student attendance data, etc.) is not included in the 2020-21 report.**

Despite the unavailability of some key data, The New Jersey Department of Education (NJDOE) encourages all members of the school community to use the performance reports to help start local conversations by asking questions such as: How is our school doing relative to other schools? Are all students making progress? The School Performance Reports were developed with, and are continually improved by, the feedback from stakeholders like you. Please contact me if you have any questions regarding this any related matter.

Sincerely,

Seamus Campbell
