

## **High Point Regional High School Structured Learning Experience Program**

The Structured Learning Experience (SLE) program is designed to introduce high school students with disabilities to workplace skills while beginning the process of transition to post-secondary planning. Students will develop workplace preparedness and functional skills through activities inside and outside the classroom. SLE is a Structured Learning Experience that can take place both within the school and in the community.

We would like to invite your business to participate in this very special and unique volunteer program. Your participation will be essential in preparing our students to be 21st Century workers. They will be able to acquire relevant skills to enable them to become responsible members of our community. The students are enthusiastic and ready to start working!

The district member assigned will ensure that the employee-volunteer relationship is safe, will set up the parameters of the program, and will visit each job placement site. Students will have the opportunity to move from site to site to acquire diverse experiences in different fields. Job coaches will assist, instruct and evaluate students.

To become an SLE job placement site, please contact:
